

Baltimore City Street grid	Full city road network	Opendata Baltimore API	Less than 50MB
Maryland Transportation Administration GTFS Schedule data	Bus and Metro schedules	MTA (text files already formatted for easy input into SQL database, possible direct download)	150MB
Location of all intersections in the city	Latitude and Longitude for all intersections in the city. Can be used to estimate routes without private student data.	Opendata Baltimore API (needs to be created from the street grid. I know how to do this in Arc, but it would be great to figure out how to do it in Python or SQL).	Less than 50MB
American Community Survey data	Census data and shapefiles for tracts in Baltimore City	Census.gov (no direct download)	Less than 50MB
